

## **LNA EDUCATION PROGRAM COORDINATOR QUALIFICATIONS UPDATE**

At the July 19, 2018 Board meeting, the Board reviewed the qualifications for the LNA Program Coordinator as addressed in Nur 704.04. This was in response to several inquiries regarding substitution of the provision of 2 year's long-term care experience, to include educators and staff development coordinators with experience in long-term care education and nurses with hospice experience. After review of materials and discussion, the Board agreed to include long-term care staff development, hospice, and Acute Care for Elders (ACE) unit experience, faculty experience in gerontology, and Nurses Improving Care for Health System Elders (NICHE) Certification.
