

Dear Medical Imaging and Radiation Therapy Licensees,

We know many of you are working with new graduates or licensees who are in the process of applying for a license. Please share the information below to assist in the process and ensuring timely processing of license applications:

When submitting applications for licensure and obtaining a criminal history check, we strongly suggest using the live scan process through the NH Department of Safety rather than ink prints. Ink prints can cause delays and require more than one set of fingerprints to have a successful result leading to unusually long turnaround times and delays in the application process.

For more information, please [visit our website](#) on how to schedule the Live Scan process and the NH Department of Safety Criminal Records Portal to obtain a criminal history check.

Thank you,

Office of Professional Licensure and Certification
