

Dear Licensee,

The Office of Professional Licensure and Certification (OPLC) has received reports of individuals impersonating representatives of OPLC. These callers may claim to be from our agency and request personal information, other sensitive data, or threaten licensure suspension for non-compliance. Our agency will never call to request sensitive personal information over the phone nor threaten license suspension. If you receive such a call, do not provide any information. If at any point you are unsure if you are talking to an OPLC staff member, hang up and verify the legitimacy of the communication by contacting us directly at (603) 271-2152 or CustomerSupport@oplcnh.gov

We are committed to safeguarding your information and take these matters seriously. If you have any questions or concerns, please contact us directly.

Thank you,

Office of Professional Licensure and Certification
