9. If anything is incomplete, you will not be able to move past the upload page. If this happens then carefully go back through each page, check for completion, and hit submit at the bottom of each page
10. If this still does not fix the problem, then please email our IT department by selecting the 'Contact Us Form' at the bottom of any screen within the online application for help. Sometime uploading documents can cause the application to get stuck and you must email IT to resolve.

We will not receive your application or be able to assist you until you get past the pay fees page.
