Director

July 8, 2022

On July 6, 2022, the United States Food and Drug Administration revised the Emergency Use Authorization for Paxlovid to permit licensed pharmacists to dispense Paxlovid under certain circumstances. Consistent with this, and pursuant to the DHHS Declaration of Public Health Incident to Respond to Coronavirus Disease 2019 in New Hampshire, dated June 21, 2022, New Hampshire licensed pharmacists may dispense Paxlovid pursuant to a standing order issued by a New Hampshire licensed health care professional who is authorized to prescribe such medication for the treatment of COVID-19. Such authorization is valid for the duration of the DHHS declaration.
