Programmatic Approval Required?	APRN	CRNA	MSN	DNP	RN to BSN	LPN to RN
	Clinical See Below	Clinical See Below	No	No unless leads to initial licensure	No	Yes
Programmatic Approval Required to Offer Clinical Experiences?	See required documentation at URL: https://www.oplc.nh.gov/new-hampshire-board-nursing					
Program Approval Process	No program approval is necessary for post-RN programs, except out of state APRN program individual students require approval for clinical or initial RN through doctorate program. Faculty working within NH responsible for clinical experiences must be licensed in NH.					
Faculty Licensure Requirements	All faculty evaluating the clinical component must be licensed in New Hampshire, unless they oversee the clinical experience from outside the state and are licensed and approved as an educator in their home state. Didactic faculty located outside the state do not need to be licensed as long as they are licensed and approved as an educator in their home state.					
Staff Guidance	Faculty responsible for clinical experiences must be licensed in New Hampshire.					
Institutional Authorization	Yes, institutions must be authorized by the Higher Education Commission to enroll students into programs with a clinical component. New Hampshire was approved as a SARA state on 12/15/2014.
